TRUSTEES.

A. SHUMAN, <i>President</i> . . .	Term expires in 1905.
CONRAD J. RUETER, <i>Secretary</i> . . .	Term expires in 1903.
HENRY H. SPRAGUE . . .	Term expires in 1904.
*LAMONT G. BURNHAM . . .	Term expires in 1906.
FRANCIS J. KEANY, M.D. . . .	Term expires in 1902.
†EDMUND D. CODMAN . . .	Term expires in 1906.

* Died Sept. 25, 1902. † Appointed Jan. 28, 1903.

MEDICAL AND SURGICAL STAFF.

Consulting Physicians and Surgeons.

WM. INGALLS, M.D.	THOMAS M. ROTCH, M.D.
EDWARD H. BRADFORD, M.D.	CHARLES F. FOLSOM, M.D.
VINCENT Y. BOWDITCH, M.D.	

Superintendent and Resident Physician.

GEORGE H. M. ROWE, M.D.

Senior Physicians.

John G. Blake, M.D.	A. L. Mason, M.D.
---------------------	-------------------

Visiting Physicians.

G. B. Shattuck, M.D.	Chas. F. Withington, M.D.
E. M. Buckingham, M.D.	Henry Jackson, M.D.
Francis H. Williams, M. D.	George G. Sears, M.D.

Assistant Visiting Physicians.

John L. Morse, M.D.	H. D. Arnold, M.D.
John L. Ames, M.D.	John W. Bartol, M.D.

Physicians to Out-Patients.

John N. Coolidge, M.D.	William H. Robey, Jr., M.D.
Elliott P. Joslin, M.D.	Ralph C. Larrabee, M.D.
Franklin W. White, M.D.	

Ass stant to the Physicians to Out-Patients.

* William R. P. Emerson, M.D.

* Reappointed for six months, beginning Oct. 28, 1902.

Senior Surgeons.

D. W. Cheever, M.D. | Geo. W. Gay, M.D.

Advisory Surgeon.

J. Orne Green, M.D.

Senior Visiting Surgeons.

Wm. P. Bolles, M.D. | Abner Post, M.D.
M. F. Gavin, M.D.

Junior Visiting Surgeons.

H. L. Burrell, M.D. | Francis S. Watson, M.D.
H. W. Cushing, M.D.

First Assistant Visiting Surgeons.

George H. Monks, M.D. | John C. Munro, M.D.
Paul Thorndike, M.D.

Second Assistant Visiting Surgeons.

Fred B. Lund, M.D. | J. Bapst Blake, M.D.
Edward H. Nichols, M.D.

Third Assistant Visiting Surgeons.

Howard A. Lothrop, M.D. | Frederic J. Cotton, M.D.
John T. Bottomley, M.D. | William E. Faulkner, M.D.
Joshua C. Hubbard, M.D.

Senior Visiting Physician for Diseases of Women.

Charles M. Green, M.D.

Junior Visiting Physician for Diseases of Women.

George Haven, M.D.

First Assistant Visiting Physician for Diseases of Women.

Frank A. Higgins, M.D.

Second Assistant Visiting Physician for Diseases of Women.

Franklin S. Newell, M.D.

Third Assistant Visiting Physician for Diseases of Women.

Ernest B. Young, M.D.

Visiting Ophthalmic Surgeon.

O. F. Wadsworth, M.D.

Ophthalmic Surgeons.

John C. Bossidy, M.D. | Edward R. Williams, M.D.
Allen Greenwood, M.D.

Assistants to the Ophthalmic Surgeons.

Robert G. Loring, M.D. | Charles F. Moulton, M.D.
Peter H. Thompson, M.D.

Aural Surgeons.

George A. Leland, M.D. | Edgar M. Holmes, M.D.

Assistant to the Aural Surgeons.

Charles D. Underhill, M.D.

Surgeons for Diseases of the Throat.

Thos. Amory DeBlois, M.D. | J. W. Farlow, M.D.

Assistants to the Surgeons for Diseases of the Throat.

George A. Leland, M.D. | Rockwell A. Coffin, M.D.

Physicians for Diseases of the Nervous System.

Morton Prince, M.D. | Philip Coombs Knapp, M.D.
Wm. N. Bullard, M.D.

Assistant Physicians for Diseases of the Nervous System.

John J. Thomas, M.D. | Joseph W. Courtney, M.D.

Second Assistant Physician for Diseases of the Nervous System.

* Marsena P. Smithwick, M.D.

Physicians for Diseases of the Skin.

James S. Howe, M.D. | George F. Harding, M.D.

Assistant to the Physicians for Diseases of the Skin.

Harvey P. Towle, M.D.

Visiting Pathologist.

Wm. T. Councilman, M.D.

First Assistant Visiting Pathologist.

F. B. Mallory, M.D.

Second Assistant Visiting Pathologist.

Henry A. Christian, M.D.

First Assistant in Pathology.

Walter R. Brinckerhoff, M.D.

* Appointed for six months, beginning October 1, 1902.

Second Assistant in Pathology.

Elmer E. Southard, M.D.

Assistant in Clinical Pathology.

Robert L. Emerson, M.D.

Medico-Legal Pathologist.

F. W. Draper, M.D.

Surgical Registrar.

J. Bapst Blake, M.D.

Gynæcological Registrar.

Franklin S. Newell, M.D.

Advisory Staff, South Department.

Wm. T. Councilman, M.D.

Geo. W. Gay, M.D.

John G. Blake, M.D.

A. L. Mason, M.D.

Physicians to the Convalescent Home.

Edward T. Twitchell, M.D.

James A. Mahon, M.D.

John P. Treanor, M.D.

HOUSE OFFICERS.

*House Physicians.**House Surgeons.*

(For six months ending July 21, 1902.)

Irving J. Fisher,	Robert Soutter,
Harris B. Haskell,	William J. McCausland,
Howard B. Jackson,	Frederick B. Willard.

(For six months ending January 19, 1903.)

Alfred H. Childs,	Percy Bartlett,
Thomas F. Leen,	David Cheever,
Samuel G. Underhill,	Peer P. Johnson.

(For six months beginning January 19, 1903.)

Michael F. Barrett,	Lincoln F. Sise,
John S. Waterman,	Fritz W. Gay,
John H. Cunningham, Jr.,	Dwight M. Lewis.

Gynæcological House Physicians.

(For six months ending July 21, 1902.)

William G. Dwinell.

(For six months ending January 19, 1903.)

Wallis D. Walker.

(For six months beginning January 19, 1903.)

Nathaniel R. Mason.

Ophthalmic and Aural House Surgeons.

(For six months ending July 7, 1902.)

David Nelson.

(For six months ending January 5, 1903.)

Edward K. Ellis.

(For six months beginning January 5, 1903.)

Ellis E. Foster.

Pathological House Officers.

(For six months ending July 7, 1902.)

Ralph L. Thompson.

(For six months ending January 5, 1903.)

Louis Hoag.

(For six months beginning January 5, 1903.)

William F. Roberts.

*Senior Medical Internes.**Senior Surgical Internes.*

(For six months beginning January 19, 1903.)

Nathaniel K. Wood,
George P. Sanborn,
Russell S. Rowland.

Miss Elizabeth C. Fairbank, *Matron.*

REPORT OF THE TRUSTEES.

THE BOSTON CITY HOSPITAL,

BOSTON, January 31, 1903.

HON. PATRICK A. COLLINS,

Mayor of the City of Boston:

The Trustees of The Boston City Hospital, in compliance with the Ordinances, respectfully present herewith the thirty-ninth annual report *for the year beginning February 1, 1902, to January 31, 1903, inclusive.*

HOSPITAL PROPER.

NUMBER OF PATIENTS.

Number of patients remaining in the Hospital						
January 31, 1902						386
Admitted from February 1, 1902, to January 31, 1903, inclusive:						
Medical					3,100	
Surgical					3,932	
Gynæcological					857	
Ophthalmic					116	
Aural					71	
					<hr/>	8,076
Treated during the year						<hr/>
						8,462
Discharged during the year						<hr/>
					7,161	
Died during the year						<hr/>
					875	
					<hr/>	8,036
						<hr/>

PRINCIPAL STATISTICS, 1902-1903.

Number of patients remaining in the Hospital January 31, 1903	426
Largest number of patients in the Hospital at any one time	435
Smallest number of patients in the Hospital at any one time	353
Daily average number of patients	401
Average number of days' stay of patients	$17\frac{3}{10}$
Number of patients accidentally injured, admitted	1,130
Number of weeks' treatment given in Hospital	20,915
Number of days' treatment given in Hospital	146,406
Number of applicants for admission to Hospital	12,259
Number of applicants rejected	4,183
Number of patients treated in Out-Patient Departments	32,152
Number of visits made by out-patients	108,315
Patients carried in ambulances	2,730

Number of out-patients treated in the Out-Patient Departments, classified according to diseases :

For medical diseases	5,980
“ surgical “	14,139
“ diseases of the eye	1,928
“ “ “ “ ear	969
“ “ “ “ skin	1,333
“ “ “ “ women	1,005
“ “ “ “ the nervous system	690
“ “ “ “ “ throat	1,916
Surgical out-patients treated in the accident-rooms, and not elsewhere included	4,192
Total number of out-patients	<u>32,152</u>

Number of visits by patients to the Out-Patient
Departments, classified according to diseases :

For medical diseases	10,228
“ surgical	65,320
For diseases of the eye	5,572
“ “ “ “ ear	4,991
“ “ “ “ skin	2,949
“ “ “ “ women	5,411
“ “ “ the nervous system	4,434
“ “ “ the throat	5,218
Surgical out-patients treated in the accident-rooms, and not elsewhere included	4,192

Total number of visits of out-patients 108,315

STATISTICS OF PATIENTS ACCORDING TO SERVICES, FEBRUARY 1, 1902,
TO JANUARY 31, 1903, INCLUSIVE.

SERVICES.	In Hospital Feb. 1, 1902.	Admitted.	Discharged.	Died.	Total Discharged and Died.	In Hospital Feb. 1, 1903.
First Surgical.....	60	1,299	1,172	113	1,285	74
Second Surgical.....	66	1,362	1,244	105	1,349	79
Third Surgical.....	58	1,271	1,135	118	1,253	76
First Medical.....	51	980	838	147	985	46
Second Medical.....	51	975	814	164	978	48
Third Medical.....	49	1,145	979	170	1,149	45
Gynæcological	43	857	803	49	852	48
Ophthalmic	2	116	114	1	115	3
Aural	6	71	62	8	70	7
Totals.....	386	8,076	7,161	875	8,036	426

The maximum number of patients in the Hospital proper
at any one time was 435, and the minimum number 353.

The daily average number of patients was $401\frac{1}{10}$. The total number of patients treated in the wards was 8,462.

EXPENDITURES.

The entire expenditures for all departments of the Hospital during the year were \$472,873.54. Of this amount \$312,811.33 was on account of the Hospital proper; \$92,607.72 on account of the South Department; \$9,497.86 on account of the eight Out-Patient Departments; \$11,564.96 on account of Pathological Department; \$34,905.24 on account of the Relief Station; \$10,012.73 for the Convalescent Home; \$647.17 on account of determining the settlement of paying patients, and \$826.53 was charged to new buildings.

To the amount expended for the Hospital proper, \$312,811.33 (see Table 1 in Superintendent's Report), there should be added the difference in the amount of stock on hand February 1, 1903, which was \$525.61 less than February 1, 1902. There should also be deducted \$546.83 for printing Medical and Surgical Reports and \$627 for card cataloguing clinical records, making the total amount chargeable to the expenditures of the year \$312,163.11. This sum was expended for 20,915 weeks' board for patients, but if we deduct the money collected for paying patients, interest of trust funds, and other income, the *net cost to the city per capita, per week*, was \$11.19.

The report of the Superintendent, presented herewith, contains a more detailed statement of the year's expenditures, various tables relating to patients admitted, and is accompanied by the medical and surgical statistics and other information. These tables give in detail the number of patients treated in the various departments during the year, with classified statements of their diseases and results of treatment.

PAYING PATIENTS.

There has been collected from patients of all classes the sum of \$68,069.44. There was received from the Commonwealth of Massachusetts, for the board of patients, \$19,142.98; from various cities and towns, \$15,380.57;

there has been collected at the Superintendent's office, on account of private room and ward-paying patients, \$28,024.28 ; for the board of paying patients at the South Department, \$5,372.80, and for the board of patients at the Relief Station, \$148.81. During the last twenty years there has been collected and paid into the city treasury a total of \$985,967.28.

OUT-PATIENT DEPARTMENTS.

The total number of out-patients treated during the year was 32,152, and the number of visits made by patients was 108,315. The Surgical Out-Patient Department still occupies the temporary quarters on the accident floor of the Surgical Operating Building, resulting in considerable inconvenience to the surgeons and to the attendants upon the patients. There has been an increased attendance in the Out-Patient Departments during the year.

PRESENT CAPACITY OF THE HOSPITAL DEPARTMENTS.

The capacity of the Hospital last year was 736 beds. The number of beds has been increased, by reason of the opening of the Relief Station, and the available beds this year are as follows :

Hospital proper	436
South Department	264
Convalescent Home	36
Relief Station	20
	<hr/>
Total	<u>756</u>

The administration of the Hospital has been much hampered by the fact that Wards K and L are not yet completed. When Pavilion III. is finished and occupied there will be an increase of 120 beds, which will furnish the much desired additional rooms for patients.

HOSPITAL RENOVATIONS.

There has been expended upon repairs to buildings, in all departments of the Hospital, \$28,757.45 — \$19,383.08 upon

the Hospital proper, \$6,657.21 upon the South Department, \$1,440.91 upon the Convalescent Home, and the remainder, \$1,276.25 upon the Relief Station, Out-Patient and Pathological Departments. The details of these expenditures may be found by reference to Table 2 of the disbursements, in the Superintendent's report.

NEW BUILDINGS.

At the beginning of the present fiscal year the Trustees had every reason to believe that the two new buildings under construction, which are the Out-Patient Department Building and Pavilion III., would be finished before the close of the year. Both of these buildings were under one contractor and, unfortunately, when the buildings were about one-half completed, the contractor, after many delays, went into insolvency. Progress was further delayed by the complications always incident to such an unfortunate situation. As soon as possible new contracts were made and the buildings now are being pushed forward to completion in a most efficient manner.

HOSPITAL NECESSITIES.

In the last annual report the Trustees recommended that a special appropriation be requested for a building suitable to the further development of an X-Ray Department, particularly for out-patients. Although there are many evidences that this work would bestow incalculable advantages upon a certain class of patients, they recognize that as a department of hospital treatment it is in the process of development. To assist in this work they have furnished, under one of the wards, a waiting-room for patients, three dressing-rooms and three treatment-rooms, with three X-Ray machines. It is thought best to continue this work under these conditions for another year, and to watch the results.

In the due course of time the sum of \$150,000, bequeathed to the Hospital by the late Lamont G. Burnham, will become available for ward buildings, which will still further increase the capacity of the Hospital.

SOUTH DEPARTMENT.

The statistics for the South Department for infectious diseases for the year February 1, 1902, to January 31, 1903, are as follows:

Number of patients remaining in the South Department, January 31, 1902'	228
Admitted from February 1, 1902, to January 31, 1903, inclusive	1,902
	<hr/>
Treated during the year	2,130
Discharged during the year 1,671	
Died during the year 213	
	<hr/>
	1,884
Number of patients remaining January 31, 1903,	246
Maximum number of patients at any one time,	250
Minimum number of patients at any one time,	118
Daily average number of patients	179
Average number of days' stay of patients	30
Number of days' treatment given patients	65,225
Number of weeks' treatment given patients	9,318
Number of patients admitted over fifteen years of age	442
Number of patients dying within twenty-four hours of admission	56
Number of patients dying within forty-eight hours of admission	23
Average age of patients	10
Percentage of deaths to total number of patients for the year	10
Percentage of deaths to discharges	11.3
Percentage of deaths to total number of patients for the year, less those occurring within twenty-four hours of admission	7.3
Percentage of deaths to discharges, less those occurring within twenty-four hours of admission	8.3
Percentage of deaths within twenty-four hours to whole number of deaths	26

The death-rate from diphtheria for the year	
ending January 31, 1903, was	10.11
Number of days' board given persons . . .	104,709
Number of weeks' board given persons . . .	14,958
Total expenditures	\$92,607 72
Average weekly cost per patient	\$9 78

There will be found on pages 47 to 49 a detailed account of the expenditures of this department, the various sub-divisions being kept the same as at the Hospital proper. The approximate sum expended upon this department has been \$92,607.72, from which there should be deducted the difference in the amount of stock on hand February 1, 1903, which was \$1,426.26 more than was on hand February 1, 1902. This gives \$91,181.46 as the sum charged to maintenance for the year; this sum, expended upon 2,130 patients and divided by 9,318 weeks' board, gives \$9.78 as the cost per patient per week. The total expenditures upon subsistence supplies was \$24,921.42, and the total number of weeks' board for an average of 286 persons was 14,958. This gives a weekly cost per person, for uncooked subsistence supplies, of \$1.66, or 24 cents per day.

The South Department for infectious diseases is one of the most important parts of the Hospital work. Its wards first received patients in August, 1895, and during the eight years 19,188 patients have been admitted. This work is particularly trying, by reason of the complications of infection. It frequently happens that there are plenty of vacant beds for scarlet fever patients, and yet the diphtheria wards are crowded, and the opposite condition often obtains. In spite of generous accommodation for the various kinds of infection, it is extremely difficult to treat different patients having a different complication of infectious diseases and yet prevent the further spread of infection. This sometimes compels us to reject cases that should be admitted. At times the crowding of some of the wards caused much criticism. There were 505 patients rejected during the year, some because they were non-residents, some because they had been exposed to smallpox, others were not suitable cases for admission, and 245 applicants were rejected because they

had no infectious disease. Thirty-one cases were rejected for want of room at the time of application.

The Trustees have previously alluded to the deficiency in having no ward for measles. When this disease is largely prevalent the Hospital has been obliged to reject cases which, undoubtedly, would have diminished the amount of infection in the city at large. The Trustees in their reports have several times called attention to the fact that an additional building should be constructed solely for the treatment of measles. This was originally intended, but never carried out for want of sufficient appropriation. The Trustees desire to again place themselves on record in saying that this is a pressing necessity, and recommend that \$125,000 be appropriated for that purpose.

RELIEF STATION.

The Relief Station was opened on February 20, 1902, and has been in operation $11\frac{8}{30}$ months. The following are some of the principal statistics for that time:

Number of ward patients treated	1,086	
Number of out-patients treated	19,064	
	<hr/>	
Total patients treated		20,150
Number of surgical operations		199
Number of deaths		94
Number of deaths within twenty-four hours of admission		67
Number of days' treatment given patients in the wards		2,669
Largest number of ward patients on any one day		18
Smallest number of ward patients on any one day		1
Average stay of ward patients in days		$2\frac{5}{16}$
Daily average in wards		7
Number of ambulance calls	765	
Number of transfers of admitted patients to Hospital proper	450	
	<hr/>	
Total ambulance trips		1,215

Number of cases brought by police ambulance	
and patrol wagons	855
Total expenditures, Relief Station, $11\frac{8}{30}$ months, \$34,905 24	

As this is the first year that the Relief Station has been in commission, it is interesting to note that it has more than fulfilled the expectation of the Trustees in the work it has accomplished. The number of out-patients treated was 19,064, number treated in the wards for one or more days was 1,086, making the total number of 20,150 persons treated. Considering that this is a new experiment in the Hospital Department the Trustees are much gratified at the efficiency with which the Relief Station work has been accomplished, and with the large amount of prompt relief it has supplied to the citizens of Boston, both rich and poor, in times of emergency. The Trustees are confident that the service rendered has justified their advocacy of this public Relief Station, and if, by accident or otherwise, it should be removed, its loss would be seriously felt by the public.

The organization of the Relief Station was made efficient from the start by the selection and appointment of surgeons, matron, nurses, orderlies and others who were already trained in Boston City Hospital methods, thus avoiding possible mistakes with persons unfamiliar with such special training. The Trustees intend that the best efficiency shall be maintained, keeping always to the highest standards, and giving the public the best possible service.

CONVALESCENT HOME.

This department of the Hospital work has been carried on in the usual manner, and during the year 411 patients have received treatment for a total of 7,871 days' board. The average weekly cost per patient was \$8.90.

One incident alone is worthy of special notice. On April 21, 1902, there was an incendiary fire in the bowling alley on the grounds of the Home, but the promptness of the fire department saved a larger portion of the building. This was repaired and utilized for a recreation-room for patients during inclement weather. This makes it more useful than it was originally.

TRAINING SCHOOL FOR NURSES.

The Training School for Nurses has just completed its twenty-fifth year, which event was celebrated on the evening of January 6, 1903, by the graduates and pupils of the school. Happily, the two founders of the school — Dr. Edward Cowles, at that time Superintendent of the Hospital, and Miss Linda Richards, Superintendent of Nurses — were present and outlined the conditions that existed previous to the systematic training of nurses. Addresses were also made by Mr. Sprague of the Trustees, Dr. Cheever for the Visiting Staff, and Dr. Rowe the Superintendent of the Hospital.

The great progress that has been made in the care of the sick and the general improved conditions of the Hospital were vividly set forth, and were the cause for much congratulation.

The school now numbers 145 nurses, and they are distributed in the various departments as follows: One hundred and one at the Hospital proper, 37 at the South Department, 5 at the Relief Station, and 2 at the Convalescent Home. Forty-four nurses have now received a third-year course in training. Of the graduates, 111 are now engaged in hospital work as superintendents, superintendents of nurses, or other responsible positions.

MEDICAL AND SURGICAL REPORTS.

The thirteenth series of the Medical and Surgical Reports, edited by Drs. Burrell, Councilman and Withington, have been issued during the past year. The Trustees are cordially in sympathy with that portion of the Hospital work which assists in developing medical science. With laboratories fully equipped with all the necessary accessories and under the able management of skilled physicians, and with the immense amount of material and large amount and variety of diseases treated at the Hospital, the Trustees believe that this work should be gathered together and made public for the benefit of medical science. The commendation received from many sources and the demand for copies of these reports substantiate this opinion.

GIFTS AND PERSONAL ASSISTANCE.

The Trustees desire to renew the suggestion offered in previous reports, that public-spirited citizens can in no way better contribute to the well-being of the public, particularly by the way of charity, than by donating money to the Hospital for the support of free beds or such other specific purposes as they may deem best.

The Trustees have during recent years received several bequests of more than \$100,000 each. They now take pleasure in recording the fact that Bridget O'Brien bequeathed to the Hospital the sum of \$45, in grateful acknowledgment of benefits she had received from the Hospital during serious illness. Such gifts should stimulate giving by those who are more abundantly blest with this world's goods.

The Trustees return their grateful acknowledgments to the many friends of the Hospital who have contributed to the welfare and comfort of the sick — to the various charitable organizations which have visited the Hospital at various times for the pleasure and recreation of the patients.

The Hospital is indebted to many friends for the gifts of clothing, reading matter, toys and books for the patients, particularly for the children, not only at the Hospital proper, but at the South Department and Convalescent Home.

MEDICAL AND SURGICAL STAFF.

The following are the changes in the Medical and Surgical Staff during the present year:

A. L. Mason, M.D., Visiting Physician, resigned, and was appointed Senior Physician.

Edward Reynolds, M.D., First Assistant Visiting Physician for Diseases of Women; Edwin W. Dwight, M.D., Second Assistant Visiting Surgeon; Joseph H. Pratt, M.D., Second Assistant Visiting Pathologist; Henry A. Christian, M.D., First Assistant in Pathology, and John W. Bartol, M.D., Medical Registrar, resigned their positions.

The following promotions have been made:

George G. Sears, M.D., from Assistant Visiting Physician to Visiting Physician; John W. Bartol, M.D., from Phy-

sician to Out-Patients to Assistant Visiting Physician; Frank A. Higgins, M.D., from Second Assistant Visiting Physician for Diseases of Women to First Assistant Visiting Physician for Diseases of Women; Franklin S. Newell, M.D., from Third Assistant Visiting Physician for Diseases of Women to Second Assistant Visiting Physician for Diseases of Women; Edward H. Nichols, M.D., from Third Assistant Visiting Surgeon to Second Assistant Visiting Surgeon, and Walter R. Brinkerhoff, M.D., from Second Assistant in Pathology to First Assistant in Pathology.

The following new appointments were made:

Joshua C. Hubbard, M.D., Frederic J. Cotton, M.D., and William E. Faulkner, M.D., Third Assistant Visiting Surgeons; Ernest B. Young, M.D., Third Assistant Visiting Physician for Diseases of Women; Henry A. Christian, M.D., Second Assistant Visiting Pathologist; Elmer E. Southard, M.D., Second Assistant in Pathology; Robert G. Loring, M.D., Charles F. Moulton, M.D., and Peter H. Thompson, M.D., Assistants to the Aural Surgeons; Franklin S. Newell, M.D., Gynæcological Registrar; Marsena P. Smithwick, M.D., was appointed Second Assistant Physician for Diseases of the Nervous System for six months, beginning October 1, 1902, and William R. P. Emerson, M.D., was appointed for a second term of six months, beginning October 28, 1902, as Assistant to Physicians to Out-Patients. W. T. Councilman, M.D., George W. Gay, M.D., John G. Blake, M.D., and A. L. Mason, M.D., were reappointed as Advisory Staff for the South Department.

The thanks of the Trustees are especially due to the gentlemen of the Medical and Surgical Staff, for their constant and laborious attendance upon the sick, and their interest in matters relating to the Hospital.

The Trustees desire to express their appreciation of the energetic and efficient services of their Executive, Dr. Rowe, the Superintendent, as well as those of Dr. Abbot, the Assistant Superintendent, Miss Drown, the Superintendent of Nurses, and Matron, and their various Assistants.

MR. LAMONT G. BURNHAM.

Mr. Lamont G. Burnham, a member of the Board of Trustees, died on September 25, 1902.

Mr. Burnham, on becoming a Trustee, brought to the aid of the Hospital the enterprise, sagacity and experience which he had gained from the conduct of a successful private business, and a wide public influence and authority which came from his industrial and commercial eminence, and in devoting to the Hospital a warm personal interest and wise counsel he gave it the best in his life. His interest did not, however, cease with his life. At his death he left by his will, in testimony of his devotion "to the Boston City Hospital, the sum of \$150,000 to construct and equip upon the Hospital grounds a building to be known as the Lamont G. Burnham Ward, for such uses and purposes as the Trustees of said Hospital shall in their discretion determine."

At a meeting of the Trustees at which the death of Mr. Burnham was formally announced, expressions of personal grief and estimation and the following resolutions were ordered to be engrossed upon the records of the Trustees, and a copy of the record in evidence of their deep sympathy and condolence was transmitted to the widow of the deceased:

Resolved, That in the death of Lamont G. Burnham the community is deprived of a noble, public-spirited citizen, who can ill be spared from public service.

Resolved, That the Trusteeship of The Boston City Hospital was a conscientious duty with him, and that his services in behalf of the sick and suffering poor were inestimable.

Francis J. Keany, M.D., was reappointed a Trustee for the term of five years from May 1, 1902. Mr. Edmund D. Codman was appointed January 28, 1903, a Trustee for the term ending April 30, 1906, *vice* Lamont G. Burnham, deceased.

Respectfully submitted,

For the Trustees,

A. SHUMAN, *President*.

REPORT OF THE SUPERINTENDENT AND RESIDENT PHYSICIAN.

THE BOSTON CITY HOSPITAL, January 31, 1903.

To the Trustees:

GENTLEMEN, — I have the honor to present herewith my annual report of the Hospital Department for the year February 1, 1902, to January 31, 1903, inclusive.

The Hospital is now at the close of its thirty-ninth year, and the following table shows the number of patients who have applied for admission and been treated at the Hospital proper during the last ten years:

	Patients examined for ad- mission.	Patients admitted.	Patients acciden- tally injured.	Number of out- patients treated.
From February 1, 1893, to Jan. 31, 1894....	10,803	8,292	1,495	15,592
From February 1, 1894, to Jan. 31, 1895....	11,617	8,064	1,401	18,073
From February 1, 1895, to Jan. 31, 1896....	11,589	7,956	1,469	17,740
From February 1, 1896, to Jan. 31, 1897....	11,396	7,941	1,991	20,562
From February 1, 1897, to Jan. 31, 1898....	10,999	7,916	1,359	22,712
From February 1, 1898, to Jan. 31, 1899....	11,492	8,231	1,845	22,640
From February 1, 1899, to Jan. 31, 1900....	11,557	7,945	1,427	26,288
From February 1, 1900, to Jan. 31, 1901....	11,951	8,131	1,210	27,328
From February 1, 1901, to Jan. 31, 1902....	12,030	8,033	1,091	28,635
From February 1, 1902, to Jan. 31, 1903....	12,259	8,076	1,130	31,655

The total number of patients admitted to the wards since the beginning of the Hospital has been 194,731; and the number of out-patients has been 520,568.

NUMBER OF PATIENTS TREATED IN THE LAST TEN YEARS,
AND RATE OF MORTALITY.

	No. of Patients Treated.	Died.	Rate of Mortality.

Net cost to the city for maintaining Hospital Proper from February 1, 1902, to January 31, 1903, inclusive....			\$234,045 00

The tables of disbursements in Superintendent's report show the expenditures of the Hospital Department during the fiscal year, February 1, 1902, to January 31, 1903, inclusive. Table No. 1 in Superintendent's report shows the disbursements by departments, according to the general subdivisions, and includes statistics of the department divided into the Hospital proper, Out-Patient Departments, Pathological Department, Settlement Account, South Department, Relief Station, Convalescent Home and New Buildings. Table No. 2 shows the disbursements for the year in the same departments, itemizing the various sub-divisions, and includes, for all practical purposes, the quantity, cost and average price paid for the various items.

The total expenditures during the fiscal year for the Hospital Department, in its various branches, have been \$472,873.54, and the disbursements have been made as follows:

The Hospital proper	\$312,811 33
Out-Patient Departments	9,497 86
Pathological Department	11,564 96
Settlement Account	647 17
South Department	92,607 72
Convalescent Home	10,012 73
Relief Station	34,905 24
New Buildings	826 53
Total	<hr/> \$472,873 54

The Hospital Proper.—The Hospital has three sub-divisions: The Hospital proper, Out-Patient Departments and the Pathological Department. In computing the *pro rata* cost, per patient, per week, the cost of the Pathological Department is included in that of the Hospital, but for executive reasons is tabulated separately, in order to show the cost of running that department. The expenditures for the South Department for infectious diseases and the Convalescent Home are kept in separate tables.

South Department.—The total expenditure for the South Department was \$92,607.72, against \$98,419.82 for the previous year, and allowing for the difference in stock at the beginning and close of the year, the sum of \$91,181.46 represents the cost of the maintenance for the fiscal year. The per capita weekly cost at the South Department was \$9.78.

Out-Patient Departments.—The expenditure in the various Out-Patient Departments was \$9,497.86.

Convalescent Home.—The expenditure for the Convalescent Home was \$10,012.73. The daily average was twenty-two patients, and the average weekly cost \$8.90.

The total expenditures in the Hospital Department have been \$472,873.54, but the net cost to the city for maintaining the Hospital proper was only \$234,045.

The expenditures upon the Hospital proper was for the care of 8,462 patients in the wards for 146,406 days' or 20,915 weeks' board, which makes an average weekly cost of \$14.92, or a daily cost of \$2.13 for patients of all classes. The *net cost per patient, per week*, to the city was \$11.19. The cost of uncooked food supplies for all persons, including patients and the entire household at the Hospital proper, was \$96,035.96. The average number of patients was 401; of officers and employees, including house and nursing staff, 374, or a total daily average of 775 persons. The number of weeks' board for all persons was 40,433, and the weekly cost per person, for uncooked food supplies, was \$2.37, or 34 cents per day.

The maximum number of patients in the Hospital on any one day was 435, as against 495 in the previous year. The minimum number was 353, in comparison with 315 for the previous year. The daily average during the year was $401\frac{1}{10}$, and the average length of stay was $17\frac{3}{10}$ days.

The annual cost for the Convalescent Home was \$10,012.73. This sum was expended upon 411 patients, who received 7,871 days' or 1,124 weeks' board, at a weekly average cost of \$8.90 per patient.

There have been treated in the various Out-Patient Departments 32,152 patients, at a cost of \$9,497.86. Other statistics, found elsewhere, include the number of out-patients, number of their visits, rate of mortality, work of ambulances, census of days' board of all persons, the nativity of patients admitted and physical condition of patients when discharged have been tabulated as Hospital statistics.

The total number of deaths from February 1, 1902, to January 31, 1903, was 875. This does not include the statistics of the South Department.

Of the deaths, there occurred within

48 hours of admission	305, or $3\frac{6}{10}$ per cent.
Others deaths	570, or $6\frac{7}{10}$ " "
Total	875, or $10\frac{3}{10}$ " "

the rate of mortality for the year ending January 31, 1903.

This percentage of deaths is for the total number of patients treated in the Hospital. Thirty-five per cent. of the total deaths occurred within forty-eight hours after admission.

During the year 8,462 patients were treated in the wards, 32,152 as out-patients, 411 at the Convalescent Home, 2,130 at the South Department, and 1,086 were treated in the wards, and 19,064 as out-patients at the Relief Station — a total of 63,905 who have received the benefits of the Hospital in all departments.

During the year 12,259 persons applied for admission. Of this number 8,076 were admitted and 4,183 were rejected, the latter being 186 more than last year. The number rejected was 34 per cent. of all persons applying. The causes of rejection appear in the table of applicants not admitted, on page 34. Of the number not admitted, 727 either changed their minds or were deferred. Of this class, however, 252 were admitted within three days after application and 73 admitted later. There were also rejected 1,205, solely for want of vacant beds, but 601 were admitted later. There were 962 applicants who could be treated in the various out-patient departments, without the additional cost of receiving them in the wards. Admission was denied to 352 for lack of information that they were suitable cases. There were referred to other and more appropriate institutions 254, and 140 were rejected as apparently incurable, or unsuitable for treatment here. Various other causes of rejection appear in the tabulated form.

The ambulance service of the Hospital has carried during the year 5,453 patients. Of this number 2,730 were for the Hospital proper, 1,508 for the South Department, and 1,215 for the Relief Station. The odometers on the ambulances show a total of 29,558 miles during the year. The record also indicates that one ambulance, with different horses, went forty-eight miles in one day. The number of accident cases received was 1,130.

The constant outlay upon repairs has been a part of this year's work, and always will be upon so large a group of buildings. The boilers and heating system are constantly

depreciating; and the installation of a smoke consuming device in nine boilers involved the expenditure of \$4,150.17. General repairs of plumbing, \$2,958.28, painting, \$1,008.20, and other work, amounted to \$7,871.44.

Repairs at the South Department were \$6,657.21, which included painting the whole of the East Pavilion and portions of other buildings.

Early in the year a "roof garden" was established upon the roof of Ward O. Awnings, boxes of shrubs and plants, a "sand garden," and other means of amusement for children were furnished. Adult patients from the private surgical wards, as well as from the open wards, were likewise taken here by means of the elevator, and proved to be a valuable aid in practical open-air treatment of special cases.

The statistics of the Convalescent Home, which has just commenced its twelfth year, are as follows:

Number of patients in Home at the beginning of the	
year, January 31, 1902	24
Admitted during the year	387
	<hr/>
Total treated during the year	411
Discharged during the year	386
Number remaining in Home, January 31, 1903	25
Largest number on any one day	33
Smallest number on any one day	9
Daily average number of patients	22
Average length of stay in days	19

The Medical Library has been increased during the year by 197 volumes, 68 by purchase and 129 by donation. The total number of volumes at the close of the year was 3,768. The Library has received 624 periodicals, and 1,203 medical monographs or pamphlets.

The work of card-cataloguing the clinical record-books and autopsy records has been continued, and there is now a total of 172,909 index cards.

The Training School for Nurses has completed its twenty-fifth year. The changes during the year have been as follows:

SUMMARY FROM FEBRUARY 1, 1902, TO FEBRUARY 1, 1903.

February 1, 1902, the number of nurses was . . . 136

During the year nurses have left as follows:

Have been graduated	44
First Assistant Superintendent of Nurses promoted to Matron, Relief Station	1
Night Supervisor of Nurses resigned	1
Graduate head nurses resigned	9
Pupils dropped for various causes	12
Probationers not accepted	28
Pupil discharged	1
Graduate special nurse withdrawn	1
	<hr/>
Total vacancies	97
	<hr/>
Number remaining	39
Graduates retained as night supervisor of nurses	2
Graduates retained as head nurses	2
Graduates retained as third-year nurses	7
Pupil nurse readmitted	1
Probationers admitted	89
Graduate special nurses employed	5
	<hr/>
Remaining January 31, 1903	145
	<hr/>

Nurses connected with the school, in the Hospital proper, January 31, 1903:

Assistant superintendents of nurses	3
Head nurses	10
Third-year nurses	8
Senior pupil acting head nurses	3
Senior assistant nurses	25
Junior assistant nurses	36
Probationers	15
Graduate special nurse	1
	<hr/>
	101
	<hr/>
<i>Carried forward</i>	101

<i>Brought forward</i>	101
------------------------	---	---	---	---	---	-----

In the South Department January 31, 1903:

Day supervisor of nurses	1	
Night supervisor of nurses	1	
Graduate head nurses	4	
Senior assistant nurses	15	
Junior assistant nurses	12	
Graduate special nurses	4	
	—	37

Relief Station:

Graduate nurses	2	
Senior pupils	3	
	—	5

Convalescent Home:

Graduate nurse, matron	1	
Senior assistant nurse	1	
	—	2

145

The Training School has graduated during the year 44 nurses, making a total of 730. Twelve nurses have also completed the third-year course and received the *cum laude* diploma, making a total of 44 third-year nurses.

The Superintendent and her assistants have given 205 class recitations at the Hospital proper and 127 at the South Department, making a total of 332 during the year.

The school has received 49 lectures on Friday afternoons from members of the Medical and Surgical Staff and others. In the month of March there were given four lectures on sociological topics to the third-year nurses and the undergraduates, as follows: Mrs. Charles G. Ames, "Women in Industrial Life"; Mrs. Edwin D. Mead, "What Women can do for Civics"; Miss Sarah L. Arnold, "The Aims and Scope of Simmons College;" and Mr. Henry T. Bailey, "Beauty in Humble Homes." Our thanks are due these speakers for giving their valuable services.

The cooking classes have been carried on by Mrs. Boland

Pequignot, thirty-seven lessons having been given in sections, in addition to the usual three lectures before the school.

Mrs. Gulli J. Callowhill has given 68 lessons in massage to nurses in sections of four pupils each.

At the Hospital proper, Robert Hazen, M.D., was appointed Second Executive Assistant February 19, 1902, and resigned September 2, 1902. William J. McCausland, M.D., was appointed Second Executive Assistant August 4, 1902.

At the South Department, Robert Hazen, M.D., Assistant Resident Physician, resigned February 10, 1902, and William E. Currier, M.D., Assistant Resident Physician, resigned August 19, 1902. Thomas B. Cooley, M.D., was appointed Assistant Resident Physician April 12, 1902.

At the opening of the Relief Station, John T. Bottomley, M.D., was appointed Supervising Surgeon; Harry H. Germain, M.D., and Richard Collins, M.D., Resident Surgeons. In October, 1902, Harry H. Germain, M.D., Resident Surgeon, resigned, and Theodore C. Beebe, M.D., was appointed Acting Resident Surgeon.

In presenting this, my twenty-fourth annual report, to the Trustees, I tender to them my grateful acknowledgments for their continued support and confidence.

I have the honor to be,

Your obedient servant,

GEORGE H. M. ROWE, M. D.,
Superintendent and Resident Physician.

MEDICAL AND SURGICAL STATISTICS.

MEDICAL DISEASES.

BEQUESTS.

GOODNOW FUND. — **ELISHA GOODNOW** of South Boston, who died in the year 1851, bequeathed to the city "all the rest and residue of my estate, real and personal, not otherwise disposed of," for the purpose of establishing in the Eleventh or Twelfth Wards of the city a hospital for the sick; one-half of said fund to be applied for the establishment and maintenance of free beds, which should always be at the disposal and under the control of the officers of the government of said Hospital for the time being. Under this will the city came into possession of \$26,000 for the support of free beds.

NICHOLS FUND. — **LAWRENCE NICHOLS**, who died in September, 1862, made a bequest to the city of the sum of \$2,000 for "the establishment and endowment of a City Hospital."

NORCROSS FUND. — 1868, January 1. The Trustees received the sum of \$2,000 from Hon. **OTIS NORCROSS**, as the foundation of a fund for the benefit of patients leaving the Hospital poor and destitute of proper clothing.

Balance on hand, February 1, 1902	\$114 48
Received interest	88 65
	<hr/> \$203 13
Expended	95 75
	<hr/> \$107 38
Balance, January 31, 1903	<hr/> <hr/>

BALL FUND. — 1870, April 1. The Trustees received from the estate of Mr. **JONAS BALL** the sum of \$1,000 for

the same purpose, and under the same restrictions, as the Norcross Fund.

Balance on hand, February 1, 1902 . . .	\$72 54
Received interest	40 00
	<hr/>
Balance, January 31, 1903	<u>\$112 54</u>

GOODNOW LIBRARY FUND. — 1874. Donation of GEORGE GOODNOW, the interest of which to be expended annually by the Board of Trustees in replenishing the library of the Hospital with books and pamphlets suitable for the reading of the patients during convalescence.

Balance on hand, February 1, 1902 . . .	\$62 02
Received interest	46 98
	<hr/>
	\$109 00
Expended	30 02
	<hr/>
Balance, January 31, 1903	<u>\$78 98</u>

SHAW FUND. — 1875. Bequest of the late MARY LOUISA SHAW, the income of which to be expended by the Trustees for the purchase of flowers and fruit, for the use and comfort of the patients in the Hospital.

Balance on hand, February 1, 1902 . . .	\$215 91
Received interest	135 64
	<hr/>
	\$351 55
Expended	102 80
	<hr/>
Balance, January 31, 1903	<u>\$248 75</u>

PERKINS FUND. — 1889. Bequest of the late MARY G. PERKINS, the income of which is to be expended for books for a medical library at the Hospital, and for the purchase of artificial limbs and surgical appliances for the use and relief of patients leaving the Hospital.

Balance on hand, February 1, 1902 . . .	\$350 11
Received interest	300 00
	<hr/>
	\$650 11
Expended	258 25
	<hr/>
Balance, January 31, 1903	<u>\$391 86</u>

CHEEVER FUND.—1889. Gift of Dr. DAVID W. CHEEVER, senior visiting surgeon, the income of which is to be semi-annually expended by the Trustees to purchase and present to each house surgeon when his service expires a pocket case of surgical instruments as a gift from Dr. DAVID W. CHEEVER.

Balance on hand, February 1, 1902 . . .	\$155 74
Received interest	120 00
	<hr/>
	\$275 74
Expended	90 00
	<hr/>
Balance, January 31, 1903	<u>\$185 74</u>

CHARLES P. HEMENWAY FUND.—1894. Gift of Mrs. CHARLES P. HEMENWAY, of \$5,000. The interest of this sum to be expended for a free bed, to be known as the Charles P. Hemenway Memorial Bed.

HERBERT L. BURRELL ETHER PRIZE FUND.—1896. Gift of TOWNSEND WILLIAM THORNDIKE, of \$1,000. From the interest of this sum there is to be given semi-annually a money prize to the House Officer who administers ether or other anæsthetic in the most skilful and humane manner.

Balance on hand, February 1, 1902 . . .	\$72 52
Received interest	40 00
	<hr/>
	\$112 52
Expended	40 00
	<hr/>
Balance, January 31, 1903	<u>\$72 52</u>

WYMAN BUILDING FUND. — November 10, 1898. Bequest of the executors of the estate of the late THOMAS T. WYMAN, to be expended by the Trustees for the benefit of the Hospital.

Received residuary legacy from Thomas T. Wyman

Estate	\$100 00

<i>Morris Louis Fund.</i> — Deposited with the Treasurer of the City of Boston	250 00
	<hr/>
	\$71,800 00
	<hr/>

The “Act to incorporate the Trustees of the City Hospital of the City of Boston” (see Acts and Resolves, 1880, chapter 174, approved April 7) provides that “money received by it shall be invested by the Treasurer of the City of Boston under the direction of the Finance Committee of said City; and all securities belonging to said corporation shall be placed in the custody of said Treasurer; *provided*, always, that both the principal and income thereof shall be appropriated according to the terms of the donation, devise or bequest, under the direction of said corporation.”

HOUSE RULES,
WITH RULES FOR ADMISSION, GOVERNMENT AND DIS-
CHARGE OF PATIENTS; ALSO RULES FOR VISITORS.

HOUSE RULES.

The doors and gates of the Hospital will be closed at 10 o'clock in the evening, at which time all inmates shall be quiet and all not on duty shall be in their rooms, unless otherwise specifically permitted.

All officers, nurses and employés of the Hospital, when going and coming to and from the Hospital, shall enter and go out by the Entrance Office, and by no other entrance. Such officers and employés as are required shall use the time register and method of booking that the Hospital rules require.

A record shall be kept of all persons entering the Hospital between the hours of 10 o'clock in the evening and 7.30 o'clock in the morning.

No employé shall be absent from the Hospital except when permitted by special rules or by the Superintendent.

No officer, nurse, orderly or other employé shall directly or indirectly receive money or other gifts from or in behalf of patients, except with the approval of the Superintendent.

The use of tobacco, wine and intoxicating liquors is prohibited within the Hospital, unless prescribed by the Physicians or Surgeons.

All profane and improper language, loud talking and incivility are prohibited.

All employés shall observe such further rules and directions for their conduct as may from time to time be established.

ADMISSION OF PATIENTS.

Applications for admission of patients may be made at the Hospital, on each day of the week, Sunday excepted, between 9 o'clock A.M. and 6 o'clock P.M.

Whenever able, a patient shall apply in person for admission; when not able to apply in person, a patient may be admitted on application made in his behalf, or upon visit at his residence by the admitting Physician.

Persons accidentally wounded, or otherwise disabled or injured, shall be received at all hours.

Patients may be admitted to the privileges of the Hospital at such rates of board as the Trustees may, from time to time, by vote, determine; payment for such board being secured by the friends of the patients or by the authorities of the cities or towns to which the patients belong.

Whenever, in the opinion of the Trustees, the circumstances of the patient will warrant it, the whole or a part of the board shall be paid. If separate apartments, or articles not usually furnished at the Hospital, are provided, such payment shall be made therefor as the Trustees shall deem reasonable.

No person having acute venereal disease, or alcoholism, shall be admitted, except as a paying patient.

No person shall be admitted to the Hospital whose case is judged to be incurable, unless there be urgent symptoms which are deemed capable of being relieved.

GOVERNMENT OF PATIENTS.

Patients shall implicitly observe all the rules of the Hospital.

Patients shall be in their proper places in the wards during the visits of the Physicians and Surgeons, and always before 7.30 o'clock in the evening, unless specially excused by the Superintendent.

Such free patients as are able shall assist in nursing, and perform such other services as may be reasonably required of them.

No patient shall leave the Hospital grounds without a pass from the Superintendent, nor leave his ward without the consent of the nurse in charge.

No patient shall purchase, or cause to be purchased for him, any article of food whatsoever, or any other article, without the consent of the Superintendent.

Profane and obscene language, loud talking and incivility are prohibited.

Patients may be visited by clergymen of their own selection, and any wish for the performance of a particular religious rite shall be granted when practicable.

Complaints, for whatever cause, may be made to the Superintendent, and whenever requested shall be by him reported to the Trustees.

DISCHARGE OF PATIENTS.

Patients shall be discharged by the Superintendent.

Patients discharged on the recommendation of the Visiting Physicians or Surgeons shall be provided with a certificate, stating their condition at the time of discharge, whether cured, relieved or not relieved, which certificate shall be signed by the Superintendent.

Whenever a patient is removed from the Hospital without the approval of the Superintendent, a written statement to that effect shall be required from any person assuming the responsibility of the removal.

VISITORS.

No person shall visit any part of the premises except on business, or at such times as may be fixed for the reception of visitors, without the permission of the Superintendent, or of some one of the Trustees.

Daily, including Sunday, from 2 to 3 o'clock in the afternoon, friends may be permitted to visit patients, though no patient shall receive more than two visitors at this hour; on week days from 6 to 6.30 P.M., one visitor may be allowed to each patient. In all cases, however, the Trustees and Superintendent may exercise discretionary powers as to excluding or admitting visitors.

When visitors are admitted outside of the regular visiting hours they shall not be permitted to remain more than half an hour, except a special permission to remain for further time is granted.

All visitors shall leave the Hospital when the bell rings at the expiration of the visiting hour.

No visitor shall take any meal in the Hospital, or pass the night therein, without permission of the Superintendent or one of the Trustees.

No visitor shall be allowed to give any article of food or drink to a patient, unless by permission of the nurse; and any article sent to a patient shall be left at the Entrance Office.

SPECIAL RULES FOR THE GOVERNMENT OF THE SOUTH DEPARTMENT.

The department of The Boston City Hospital, located on the westerly side of Massachusetts avenue, shall be designated as the South Department of The Boston City Hospital. It shall receive patients who require treatment for diphtheria and scarlet fever, and for other infectious diseases as may be determined from time to time by the Trustees.

The Superintendent of the Hospital shall, under the direction of the Trustees, have the general control and management of this department, in the same manner as of other departments of the Hospital.

The Rules of the Hospital shall, so far as applicable, and except as hereinafter provided, apply to the various officers and employees and to the conduct and management of this department.

SPECIAL RULES FOR THE GOVERNMENT OF THE RELIEF STATION.

The Boston City Hospital Relief Station is established not as a Hospital, but as a department of The Boston City Hospital for temporary relief, and the rules and methods prevailing now in the Hospital, shall, so far as applicable, and not inconsistent with special rules, apply to the Relief Station.

The Station shall afford temporary relief in all classes of accident and disease. It shall be open at all hours for patients requiring treatment or attention. Patients requiring ward treatment, whether received at the Station or taken up in ambulances, shall, so far as consistent with their welfare, be forthwith transferred or carried to the Hospital for extended treatment, but ward accommodations shall be afforded patients whose condition is such that they cannot properly be transferred. Patients may, however, if it is deemed desirable, be transferred by the ambulances to other hospitals or to their homes. First treatment may be afforded at the Station, although the applicants are not such as require ward treatment.

The Superintendent of the Hospital shall have the general administration, management, and control of the Station, the same as of other departments of the Hospital.

The Superintendent shall, from time to time, as may be necessary, nominate for confirmation by the Trustees, a Resident Surgeon and one or more Assistant Resident Surgeons, and shall appoint and employ or detail for service in this department, subject to the approval of the Trustees or of the proper Committee, a Matron, a Supervisor, nurses, orderlies, and such other minor employees as may be required for the proper conduct of the Station, who shall be subject to his supervision.

The various officers and employees of the Station shall perform such duties other than those specified, as may be required by the Trustees or the Superintendent, according to the nature of their respective duties. The Resident Surgeons, the Matron, Supervisor and such other officers as may be so required, shall reside at the Station.

AMBULANCE SERVICE.

The ambulance service of the Station shall be under the direct control of the Resident Surgeon, and shall coöperate with that of the Hospital, with which it shall form one general system. Ambulances shall, in response to calls, be despatched from the Station or the Hospital, as the exigency may require. The utmost despatch shall be exercised in the ambulance service, so far as is consistent with a regard for the welfare of the patient and the interests of the public.

Ambulances shall in general be sent from the Station or the Hospital at least upon a general alarm to all fires occurring in the city proper, and in such further districts as may be determined upon.

An ambulance shall be held during the hours of the day in complete readiness to make immediate response to calls, and shall be kept in condition to make prompt response to calls at any time of the night.

A House Officer shall accompany the ambulance, shall direct its course, and shall have direction of the care and treatment of the patient until received at his destination.

The Foreman of the ambulance service at the Hospital Station shall visit and inspect the Ambulance Department of the Station from time to time, but the immediate carrying out of directions shall be under the Assistant Foreman at the Station.

PATIENTS.

Alcoholic and insane patients shall not be received unless there is surgical or medical complication making hospital treatment absolutely necessary.

No patient, after being admitted to the wards, shall leave

the Station until his discharge, without a pass from the proper officer, nor shall he visit other parts of the Station without permission.

Ward patients shall be discharged by the Superintendent or Resident Surgeon.

SPECIAL RULES FOR THE GOVERNMENT OF THE CONVALESCENT HOME.

The department of The Boston City Hospital located on Dorchester avenue, in Dorchester, shall be known as the Convalescent Home, and shall receive such patients recovering from acute diseases as shall be transferred to it from the main Hospital for treatment during convalescence.

The Superintendent of the Hospital shall, under the direction of the Trustees, have the control and management of the Convalescent Home, in the same manner as of other departments of the Hospital.

The Superintendent shall appoint, subject to the approval of the Trustees, a Matron, and shall employ, under their direction, such further assistants as may be necessary for the proper conduct and service of the Home.

The Matron, under the direction of the Superintendent, shall have the immediate charge of the Home, and the control of all nurses and other employés and patients. She shall reside at the Home.

VISITORS.

Friends may be permitted to visit patients on week days, between 3 and 4 o'clock in the afternoon. In all cases the Trustees, Superintendent and Matron may exercise discretionary powers as to excluding or admitting visitors.

Visitors shall leave the Home and grounds at the expiration of the visiting hour, and shall visit no part of the Home or grounds other than the reception-room, except by permission from proper authority.

No person shall give any article of food or drink to a patient unless by permission of the Matron.

THE BOSTON CITY HOSPITAL. TRAINING SCHOOL FOR NURSES.

The Trustees of The Boston City Hospital in 1878 established a Training School for Nurses, in order to give to women desirous of becoming professional nurses a systematic course of training and practice.

The Training School is controlled by the Trustees of the Hospital, like all other departments of the Hospital service. The Superintendent of the Hospital has the general supervision of all matters relating to the school, its course of work and study, lectures and discipline. The Superintendent of Nurses has the immediate charge of all the nursing in the Hospital, of all persons employed in the wards, and also the instruction and management of the nurses in the Training School. All female nurses in the Hospital must be connected with the school.

The Hospital in all its departments contains seven hundred and fifty-six beds for patients. The course requires two years, and includes general medical, surgical and contagious nursing, together with ophthalmic, aural and gynæcological nursing. Maternity nursing is theoretically taught, but there are no maternity wards connected with the Hospital. Those wishing to receive such a course of instruction should apply to the Superintendent of The Boston City Hospital.

The most desirable age for candidates is from twenty-three to thirty-five years. They must be of sound health, and should send with their application a certificate from a physician certifying to the fact. They should also send a brief personal history, and give the names and addresses of three responsible persons, not of their own kin, who know of their good character and capabilities. Upon the recommen-

dation of the Superintendent and the approval of the Trustees, they will be received for two months on probation. The fitness of candidates for the training and work, and the propriety of retaining or dismissing them, will be determined by the authorities in charge of the school, under the direction of the Trustees.

An entrance examination is given to all candidates before or during the term of probation. The examination is in simple arithmetic, English composition and writing from dictation.

At the end of the first month, candidates, if considered satisfactory, are permitted to wear the cap and enter upon the regular course of training, but such candidates are not permitted to join the school formally until the end of the second month, when, if accepted, they sign an agreement to complete the prescribed course of two years, and to conform to all rules. At the end of the first six months the record and work of each pupil are carefully scrutinized as to her fitness to make a good nurse, and the right is reserved by the authorities of the Hospital to terminate then, or at any time, the connection of any pupil or nurse with the school for inefficiency, misconduct, generally unsatisfactory record, or for any other reason which may be deemed sufficient.

During the first two months pupils are called Probationers, for the remainder of the first year Junior Nurses, and during the second year Senior Nurses. Nurses who remain in the Hospital after graduation become Head Nurses.

The nurses in the Training School (including Probationers) reside at the three Nurses' Homes connected with the Hospital. The houses afford home-like surroundings, and have the best of conditions necessary to good health and personal hygiene.

The Superintendent of Nurses has the immediate charge of the Training School, under the authority of the Superintendent of the Hospital and of the Trustees, and the nurses are subject to the rules of the Hospital, like any other service.

The instruction includes the general care of the sick, the making of beds, changing bed and body linen, managing of

helpless patients in bed, etc., giving baths, keeping patients warm or cool, prevention or dressing of bed-sores, and proper management of the patient under various conditions with different diseases or injuries, the making and applying of bandages and rollers, preparation of splints, application and management of surgical apparatus, applying of fomentations and poultices, the dressing of burns, ulcers, and wounds, and other minor dressings, cupping, leeching, and subsequent treatment, and the administering of enemias.

Nurses are taught how to act in the various emergencies occurring in Hospital and private nursing, as well as in the accidents of ordinary life. They are also given lessons in *massage* by a professional instructor. There is a systematic course of training in cookery for the sick, the serving of food and delicacies in the proper manner, and the feeding of helpless patients, or those who resist food.

Instruction is also given in the best practical methods of supplying fresh air, of warming and ventilating sick rooms in a proper manner, and the proper care of sick rooms for the best good and comfort of the patients; in keeping all utensils and appliances perfectly clean and disinfected; in making accurate observations of the pulse, temperature, respiration, expectorations, the secretions, state of the skin, and eruptions; of mental condition as to delirium, stupor, shock, etc.; of the condition as to sleep, appetite, effects of diet or of stimulants and medicines; the behavior of wounds and the after treatment in surgical operations; and in the managing of convalescents. Nurses are taught the administering of medicine and the application of external remedies, how to take notes on cases, the making up of the nurses' record, and the reports to the attending doctor.

The course of training includes a fixed course of instruction during the two years from manuals and text-books, mainly given by the Superintendent of Nurses, the Assistant Superintendents of Nurses, and graduate head nurses. Lectures and demonstrations, chiefly upon practical points, are given at stated times by the medical and surgical staff of the Hospital. While the instruction by the manuals, text-books, lectures, demonstrations, quizzes and models is considerable,

the main reliance is upon accurate daily drill in the wards, operating-rooms, and other departments of the Hospital. Examinations, both oral and written, are held from time to time by the authorities of the school, and nurses will not be graduated unless they attain, on critical marking, at least 70 per cent.

The pupils are employed as assistant nurses in the wards, operating-rooms, out-patient departments of the Hospital, the South Department and the down-town Relief Station. They are given six months' training in medical wards and six months' in surgical wards; the remainder of the time to be in such wards or departments as the management may appoint.

Probationers are not paid during their first month, but for the remaining months of the junior year they receive seven (7) dollars per month, and for the senior year, ten (10) dollars per month, to pay for the expenses of their uniform, personal clothing, and other minor requirements. This sum is in nowise intended as wages, it being considered that their education during this time is a full equivalent for their services. When the term of two years is completed the nurses receive, if they pass all the examinations and are otherwise satisfactory, a diploma certifying to the regular course of training and practice, and are then permitted to wear the graduates' badge of the school. An optional third year course is provided for those graduates especially adapted to institutional work and who have passed the preliminary examination. At the completion of this course a special diploma *cum laude* is conferred.

The majority of graduates engage in private nursing, but some are invited to remain in the service of the Hospital as head nurses, with opportunities of promotion. Graduate head nurses who prefer to remain in hospital work, or return after a term of private nursing, are given post-graduate instructions in ward management, hospital housekeeping, and minor administration.

The school year has no fixed date, but accepted candidates may enter whenever vacancies occur. They are, as a rule, received in the order of acceptance, but those desiring to

enter with less delay can generally anticipate a fixed date by placing themselves on the emergency list. When coming to the Hospital they should bring with them the following articles: Three gingham or calico dresses, made plainly; eight large white aprons, made of bleached cotton, two yards wide, meeting in the back, with bibs, without straps, plain at the top and gathered slightly at the bottom, two pearl studs on the band, two inches wide, with hem at bottom five inches in depth and two inches from bottom of the dress; two bags for soiled clothes; one pair of scissors, a pin-ball and a napkin ring; a good supply of plain underclothing — every article to be distinctly marked with pen and indelible ink with the owner's name. Twenty-one pieces are allowed for the laundry each week.

Nurses must bring suitable outer garments for stormy weather, and they are required to wear boots that will be purchased on prescription of our Orthopædic Surgeon, after coming to the Hospital. If the teeth are out of order in any way they must receive attention before coming for the probationary month. Nurses are required to wear the Training School uniform after they join the school. Material for dresses will be sold at cost price; caps are furnished at a nominal price.

Hours of duty for day nurses are from 7 A.M. to 8 P.M., for night nurses from 8 P.M. to 7 A.M. No nurse is required to do both day and night duty on the same day, except in rare emergencies. Each nurse on day duty is allowed one hour after 1.30 o'clock P.M., for rest and recreation, one-half day after 1.30 P.M., each week, and four hours on Sunday. Two weeks' vacation with pay is allowed each year. If nurses are sick they are cared for in the Hospital, but pay is stopped. Pupils may be expected to have a percentage of any considerable time lost by illness or absence added to their two years, at the discretion of the management. Nurses on night duty are required to be in bed from 9 A.M. until 4 P.M. Nurses may be called upon for five months' regular night duty during the two years' training; besides "special cases" to a limited number.

COURSE OF INSTRUCTION.

JUNIOR YEAR.

Lectures and Demonstrations in Methods of Nursing.

Lectures on Fever Nursing (2) *Wilson.*

Physiology, Anatomy and Hygiene (3) *Hutchison.*

Glossaries, tables, technicals, etc. *Various.*

A lecture once a week (for thirty-four weeks) by a member of the Medical and Surgical Staff.

Critical Reviews on the lectures given by the Medical and Surgical Staff.

Instruction in the Wards by Head Nurses and Senior Nurses.

SENIOR YEAR.

Handbook for Hospitals (1) *Woolsey.*

Handbook of Obsterical Nursing (2) *Fullerton.*

General Anatomy, including instruction from Charts, Models, and the Skeleton.

Elementary Materia Medica (3) *Various.*

A lecture once a week (for thirty-four weeks) by a member of the Medical and Surgical Staff.

Practical Instruction in *Massage*. (Six lessons.)

Practical Instruction in Cooking for the Sick. (Eight lessons.)

Instruction in the Wards by Assistant Superintendent of Nurses, Night Superintendent of Nurses, and Head Nurses.

Instruction and drill in the etherizing, operating, and recovery rooms by the Operating-Room Nurses.

THIRD YEAR.

Lectures on Hospital Construction, Organization and Management.

Anatomy and Physiology for Nurses *Kimber.*

Bacteriology and Surgical Technique *Stoney.*

Nursing Ethics *Robb.*

Collateral Reading.

(1) Medical Nursing *Anderson.*

(2) Lectures on Nursing *Lückes.*

(3) Notes on Hospital Nursing *Florence Nightingale.*

(4) Anatomy and Physiology for Nurses *Kimber.*

DISTRIBUTION OF STUDIES.

Monday,	11.45 A.M.	Head Nurses: hospital administration, ward management, minor executive work, training of Assistant Nurses.
	2 to 3 P.M.	Senior Nurses [section], <i>Massage</i> .
	2 to 5 P.M.	Senior Nurses, Cooking Lesson.
	3 to 4 P.M.	Junior Nurses [section], <i>Massage</i> .

Tuesday,	11 A.M.	Senior Nurses [section], Operating-room.
	2 P.M.	Junior Nurses [5th class], Recitation.
	3.30 P.M.	Junior Nurses [3d class], Recitation.
Wednesday,	3.30 P.M.	Junior Nurses [4th class], Recitation.
Thursday,	2 to 3 P.M.	Senior Nurses [section], <i>Massage</i> .
	3 to 4 P.M.	Junior Nurses [section], <i>Massage</i> .
	3.30 to 4.30 P.M.	Third Year Class, Recitation.
Friday,	11 A.M.	Senior Nurses [section], in Operating-room.
	2 P.M.	Senior Nurses [1st class], Recitation.
	3 P.M.	Senior Nurses [2d class], Recitation.
	4 P.M.	Lecture to School in Operating Amphitheatre by a member of the Medical and Surgical Staff.
Saturday,		Preparations of Lecture Notes.

LIST OF LECTURES AND SUBJECTS.

A lecture is given to the Training School on Fridays at 4 P.M., in the Operating Amphitheatre, by a member of the Medical and Surgical Staff, once a week between September 15 and June 15. The following are among the lectures given:

Five.—Surgical Dressings: poultices, washes, fomentations, bandaging, splints, leeches and blisters, enemas, surgical hæmorrhage, etc.

Three.—Theory of Wounds: modes of healing, granulations, ulcers, cellulitis, suppuration, sloughs, erysipelas, pyæmia, gangrene, sepsis, etc.

Three.—Bacteriology, brief history and general theory: micro-organisms; general distribution in air, water, etc. Elementary consideration of pathogenic and non-pathogenic micro-organisms. Exhibition of apparatus and cultures, Practical points for nurses.

Two.—Theory of sepsis: aseptic treatment, different methods; dressings, with demonstrations and "quiz drill."

Two.—Emergencies: hæmorrhages, burns, heat-stroke, fits or seizures, drowning, fractures, immediate treatment of wounds and injuries, foreign bodies in eye, nose, and ear, poisons, domestic emergencies, and practice of expedients.

Two.—Surgical anatomy and landmarks, hæmorrhages, etc.

One.—Surgical operations: care of patients before, during, and after operations; anæsthesia and recovery; accidents, hæmorrhage, shock, especially as in private nursing.

One.—Abdominal Surgery: including ovariectomy, herniotomy, operations for abdominal injuries, etc.

One.—Fractures: varieties, preparation and care of splints and apparatus for treatment, management of cases, etc.

Three.—Medicines: avenues of taking; preparation and doses; classes of internal and external poisons; cautions; hospital formulæ.

One.—Nursing in Fevers: Theory of fever, symptoms and course of, different plans of treatment, nurses' duties as to symptoms, bed, clothing, secretions, baths, food and management of cases.

Four.—Infectious fevers, especially diphtheria and scarlet fever; symptoms and course of disease; complications; infection and contagion; special nursing in croup, laryngitis, tracheotomy, intubation, etc.; management of patient, and surroundings; personal hygiene of nurse in attendance, etc.

Two.—Symptomatology in Disease: what and how to observe accurately; vital organs and special symptoms. The model sick room: temperature, light, ventilation, care of bed, bedding and clothing, furniture, utensils, disinfection, cleansing, dusting, etc.

Three.—Care of Children in Health and Disease: diet and clothing of infants and children; various infantile diseases.

Two.—Physiology of Pregnancy and Labor: delivery, confinement, nursing.

One.—On Gynæcological Nursing: preparation of patient for examination or operation; treatment after operations, douches, use of catheter, etc. (Demonstrations to sections of senior nurses in Ward S operating-room.)

One.—Special Nursing in Nervous Diseases, including the insane.

Two.—Special Nursing in Skin Diseases and Syphilis in the infant and Adult.

One.—Special Nursing in Diseases of the Eye and General Care in Health and Disease.

One.—Special Nursing in Diseases of the Ear: its care in health and disease; nurses' duties at operations and continued treatment in disease.

Two.—Food Values and Principles of Cooking Food.

One.—Urine: characteristics, properties, including taking notes on same, and brief analysis. Drill in laboratory by classes in sections.

One. — Massage : its history, theory, and modes of application.

Three. — Visceral Anatomy : demonstrations by post-mortems ; care of the dead, etc.

One. — Suggestions to those about to engage in private nursing.

THIRD YEAR.

Lectures and Demonstrations.

Four. — Hospitals : plans, heating, plumbing, business.

Three. — Hospital Relations : medico-legal, boards of health.

Three. — Training Schools : organization and administration.

One. — The Hospital Pharmacy.

Two. — Hospital Housekeeping.

One. — Hospital Food Supplies.

One. — Monthly Requisition in Linen-room.

One. — Methods of Cooking and Serving Diets.

One. — Hospital Washing, etc.

One. — System of Heating and Lighting.

One. — Ambulances : their use, etc.

One. — X-Ray Work : fluoroscope.

Four. — Sociological topics.

LIST OF GRADUATES.

THE BOSTON CITY HOSPITAL TRAINING SCHOOL FOR NURSES.

Arranged According to Year and Sequence in Graduation.

[*Married. †Died.]

[The Badge of Graduate Nurses.]

1879.

†Miss Rosa McCormick,	Miss Elizabeth A. Andrews,
“ N. Elizabeth Fillebrown,	* “ Myra E. McIlvin,
† “ Mary L. Kelso,	* “ Martha J. Blackwood. (6)

1880.

Miss Asenith Clement,	†Mrs. Susan M. Hatch,
Mrs. Margaret Little,	†Miss Olivia Hews,
Miss Annie Cochran,	“ Mary Monteith,
† “ Louisa Morrill,	† “ Victoria O. Fowler,
Mrs. Lucy Rice,	* “ Minnie Gilman,
*Miss Eva Hallowell,	“ Anna C. Maxwell,
“ Mary E. Prescott,	Mrs. Sarah Cooke. (14)
